Control it DS/RS - easy control for multiple Box Design components !

Control it /DSRS is a universal remote control with beautiful aluminium housing front for the Box Design lines DS, DS2, RS and S! It makes it incredibly easy to navigate on your Stream Box, turn the volume up on you Pre Box or to switch the inputs on your DAC. All without taking another remote control in your hand. You only have to change to the device you want to control by pushbutton. Therefore this is the remote you really need, because Control it DS/RS is able to replace all existing Box Design remotes completely!
