

## CD BOX (DC)

### CD disc player

MSRP 299 € (incl. VAT)

colour options:  

- 16bit/44.1kHz CD Audio playback
- CD, CD-R, CD-RW, Hybrid SACD playback
- Robust and reliable all-metal CD transport
- Slot-in mechanism
- Servo board optimised for 1:1 playback of CDs
- Direct I<sup>2</sup>S digital-interface to internal DAC
- DAC from Texas Instruments (Burr-Brown)
- Gold plated RCA connection sockets
- Remote control with volume level adjustment for Pro-Ject Audio Systems amplifiers
- Outboard power supply included
- Available in silver or black

**Unterstützt:** CD, CD-R, CD-RW und Hybrid-SACD

**Frequenzbereich:** 20Hz - 20kHz / -0,3dB

**Rauschabstand:** 96dBA

**THD:** 0,01%

**Hochpegel Ausgang:** 1 Paar RCA/Phono Buchsen

**Ausgangsspannung:** 1Veff

**D/A Wandler:** Texas Instruments TLV320DAC23. 24Bit/96kHz, 8x oversampling

**Batterietyp für Fernbedienung:** 1 x CR2032 / 3V

**Externes Netzteil:** 9V/2A DC; 220 - 240V, 50Hz

**Standby Stromverbrauch:** < 1 watt

**Leistungsaufnahme:** 300mA typisch, 1500mA max.

**Maße B x H x T (T mit Buchsen):** 206 x 36 x 150 (156)mm

**Gewicht:** 1260 g ohne Netzteil

## CD Box: Pure CD listening pleasure!

A dedicated pure CD-only player will perform better in playback of stereo CDs than DVD or Blu-ray Disc players can. The CD Box (DC) is designed exclusively for playing audio CDs on the „Red Book standard“ by Philips and is in this discipline a true master of his trade. To achieve this high-quality, a durable drive is essential for the perfect CD playback as well as a servo control, optimized for audio playback. Our servo system allows real-time scanning with minimal jitter. Together with advanced D/A converter blocks a true hifi reproduction is achieved, that usually can not be found in this price range. For even better performance see also CD Box S and CD Box DS from Pro-Ject Audio Systems.
