

# Pick it S2 MM

## MM phono cartridge

MSRP 99 € (incl. VAT)

**Replacement stylus:** MSRP 74 € (incl. VAT)

- Moving Magnet principle
- Split pole pins enables frequency responses that compares very well to MC cartridges
- Strong cantilever based on high-end DJ cantilevers
- Suitable for low to medium tonearm masses
- 1/2 inch mounting standard
- High trackability

**Output voltage at 1000 Hz, 5cm/sec:** 7 mV

**Frequency response:** 20 - 20 000 Hz, +3/-1 dB

**Tracking ability at 315 Hz at recommended tracking**

**force:** 70  $\mu$ m

**Stylus type:** Special Elliptical

**Tracking force, recommended:** 1,8 g (mN)

**Cartridge weight:** 7,2 g

**Recommended load resistance:** 47 k $\Omega$

**Recommended load capacitance:** 150 - 300 pF

The Pro-Ject Pick it S2 MM is manufactured by the cartridge experts at Ortofon and voiced by the design team at Pro-Ject. It is equipped with a special elliptical stylus tip. It provides detailed sound reproduction and expansive imaging. It is a no-nonsense performer with fascinating musical resources. Attached to a strong cantilever, used in DJ cartridges, this cartridge will not just sound great, it is also very strong.

The cartridge is made from a unique combination of technologies. Among others Ortofon's well known split pole pins. This enables it to have a flat frequency response, which compares with MC cartridges. The superior treble output provides a dynamic and warm sound.

Inspired by the diamond found on the stylus, the Pick it S2 MM is a beautiful design featuring a new and unique semi-transparent grey color. It goes perfectly with most Pro-Ject record players.
