

KM Signature

High-end turntable with 9" S-Shape tonearm

MSRP 2599 € (incl. VAT)

- Limited quantities available
- Electronic speed control 33/45 - acts as "Speed Box" with ultimate speed stability
- Control buttons on front of chassis
- Precision aluminium platter with vinyl mat
- Precision diamond cut clamp included
- Record clamp tightens record to platter
- MDF chassis
- Audiophile grade 9" S-shape aluminium tonearm with selected precision Swiss bearing

Colour options:

Speed: 33, 45 (electronic speed change)

Drive principle: belt drive

Platter: 300mm aluminium

Mains bearing: stainless steel

Wow & flutter: +/- 0,08%

Speed drift: +/- 0,5%

Signal to noise: - 70dB

Tonearm: 9" S-Shape aluminium

Effective arm length: 230 mm

Effective arm mass: 8,5 g

Overhang: 18 mm

Tracking force: 10 - 30mN

Included accessories: 15 volts DC / 800 mA power supply, dust cover

Power: 110/120 or 230/240 Volt 50/60 Hz

Power consumption: 4 watt max / < 0,5 watt standby

Dimensions: 460 x 160 x 360 mm (WxHxD) lid closed

Weight: 7,7 kg net

Outstanding performance from a luxurious turntable configuration

The KM Signature is a tribute to one of our Pro-Ject heroes Kurt Martens. He was working as a distributor for Canada and the Benelux countries for many years and is one of THE experts in turntables.

KM Signature is based on the Xtension 9 with a more **luxury design** and a **better motor suspension** to avoid motor noise. The addition of precision motor control with electronic speed changing and a **highend 9" S-shape aluminium tonearm** means playback quality is vastly improved.

The heavy chassis is made from MDF using a **non-resonant construction** technique. The turntable platter is built with heavy, non-resonant aluminium in a precisely balanced sandwich configuration.

A **vinyl layer** acts as the perfect turntable mat.

A **screwable, precision diamond cut and lightweight record clamp** eliminates unwanted record vibration and rumbling of the main platter bearing. The audio performance of the final product benefits from the **resonance-free platter**, avoiding the ringing effect of common metal and glass platters. An acrylic dust cover is also included.

The top grade aluminium S-Shaped tonearm convinces with a **harmonic, musical and engaging sound**. Because of the detachable headshell it is very easy to swap out cartridges.

The KM Signature is only available in **limited quantities**.
