

## Debut Carbon EVO: Our most popular turntable refined in every aspect

Pro-Ject Audio Systems is proud to announce the Debut Carbon EVO, the latest evolution of our most popular turntable design that revolutionized the Hifi industry.

From the middle of the 1990s, only a handful of years after Pro-Ject Audio Systems was founded and right at the peak of CD's popularity, we could already see the growing number of people missing analogue music.

In 1998 Heinz Lichtenegger and his UK distributor and longtime friend, Laurence Armstrong, were sitting together dreaming of a new record player model that could deliver as close to high-end sound as possible, but at a price that a new younger generation could afford.

For more than 20 years, the Debut is one of the best-selling products in the history of hi-fi with close to 1 million units sold. It made listening to vinyl an affordable option for music lovers. Its minimalist aesthetic and premium finish options also made analogue fashionable again. Through the years we constantly kept improving our formula, moving with technologies and fashion trends. Now in 2020, it is time for the next generation.

The Debut Carbon EVO focuses on the core aspects that make a turntable sound great: Technically correct design – expert craftsmanship – handmade in the EU.

The Debut Carbon EVO including cartridge is available for MSRP 499 € (incl. VAT) at Pro-Ject dealers in autumn 2020.

## Debut Carbon EVO's new features:

### New motor suspension

The improved motor suspension further eliminates unwanted noise.

### Built-in speed control

Elegantly hidden speed switch for simple 33/45(78) RPM selection and electronically controlled speeds.

### TPE dampend heavy steel platter

The thick elastomer ring added to the inside of the platter reduces resonance.

### New height adjustable metal feet

New 3 piece aluminum / elastomer feet decouple the player from outside vibrations.

### 5 new satin signature colors

Satin Steel Blue

Satin Fir Green

Satin Golden Yellow

Satin White

Satin Black

## The Foundation

What hasn't changed is the spirit that is carried on by the EVO model: the great features which made the Debut Carbon such a great success:

- 8,6" one-piece carbon tonearm
- Pre-adjusted 120€ cartridge
- Precision belt drive with electronic speed control
- 8x hand-painted or real walnut veneer MDF chassis
- Semi-symmetrical phono cable with metal connectors
- Gold plated RCA connectors
- Dust cover included
- Handmade in Europe

## The history of Pro-Ject

Pro-Ject was founded in 1991, during the onslaught of the compact disc and CD players, with the mission to offer the best analogue experience for a reasonable price. In a time where the digital audio media had been on the rise, and vinyl was declared as outdated and dead, Heinz Lichtenegger kept his belief in the simple but best way to enjoy music – turntables.

We aim to get as many people as possible into the wonderful hobby that is HiFi audio and to deliver a real stereo experience for the lowest cost possible. The best way to start is with a proper turntable. We want to give the customers back the right to choose what they need, without overblowing our products with unnecessary features.

Here at Pro-Ject, we strive to create astonishing products with impeccable value. We only use the best components for the price and manufacture our handmade goods solely in Europe. With an eye for future trends, we are always trying to fit the needs of the market.

Our passion and drive have been recognized by many acclaimed magazines. We have won multiple awards from the renowned HiFi press for our turntables and electronics over the years. Our products have also been used in countless TV shows and movies.

With cutting edge technologies and machines, we can create visually pleasing products without losing the eye for the finest details. We closely work with partners from the music industry, such as Universal Music Group (The Beatles), Third Man Records (Jack White), The Rolling Stones, Parov Stelar, or the world-famous Hard Rock Café. Many industry leaders also cooperate with us, like the Vienna Philharmonic Orchestra or Ortofon for their jubilees. With these partners, we create special limited edition products to give our customers even more choices.
