

## Two EISA awards 2020/2021 go to Pro-Ject

Pro-Ject continues its EISA winning streak for 2020/2021. Two of the prestigious EISA awards go to the Pro-Ject turntable T1 and our popular record cleaning machine VC-E. We are glad to see experts' opinions reflecting our products' popularity with customers.

The T1 won Best Value Turntable, the VC-E was awarded Best Product in the category Audio Accessory. Pro-Ject continues to develop audio equipment with outstanding value making quality music reproduction accessible to a broad audience all over the world.

**Pro-Ject T1:  
The sensible and attractive choice for  
playing back vinyl at an entry-level  
price point**

Pro-Ject has been making turntables for almost three decades, starting with the original Pro-Ject 1 and, along with the later Debut models, it more or less reinvented the budget turntable market. The T1 is the latest version of that design – a budget audiophile record-playing package with excellent sound for the money. The company also offers versions including a built-in phono stage and Bluetooth transmitter! With its machined plinth, high precision bearing, glass platter and newly-designed one-piece aluminium tonearm, it offers a wonderfully weighty and detailed sound – and even the Ortofon OM 5E MM cartridge is pre-installed, making it completely plug-and-play.

We're glad to see the enthusiasm for vinyl spread. Today many companies are trying to get a foothold in turntable business.

We wish all those who contribute great systems for all of us luck on the journey – and let's hope those who are in the game for the wrong reasons (to make a quick buck) will disappear soon for good.

By supplying the growing community of vinyl lovers with dependable, affordable, high-quality turntables we were not only able to keep the dwindling vinyl market alive but even rekindle the production of records. That's great news for newbies and veterans alike.

## **Pro-Ject VC-E: Proper record cleaning for the casual vinyl lover at home**

Having spearheaded the vinyl revival with its excellent – and very affordable – turntables, Pro-Ject has now turned its attention to looking after your precious LP collection with its compact VC-E record cleaning machine. Not only is it small, it's also very affordable and fast, spinning the disc at 30rpm to

enable it to be cleaned in just a few rotations. In fact, Pro-Ject says one spin in each direction should be enough, while the clamp keeps the record label dry and the suction arm cleans the surface effectively. The result? Less noise, less stylus and vinyl wear, and even better sound from your favourite LPs.

@ Roland Vorabberger

## The history of Pro-Ject

Pro-Ject was founded in 1991, during the onslaught of the compact disc and CD players, with the mission to offer the best analogue experience for reasonable prices. In a time where the digital audio media had been on the rise, and vinyl was declared as outdated and dead, Heinz Lichtenegger kept his belief in the simple but best way to enjoy music – turntables.

We aim to get as many people as possible into the wonderful hobby that is HiFi audio and to deliver a real stereo experience for the lowest cost possible. The best way to start there is with a proper turntable. We want to give the customers back the right to choose what they need, without overblowing our products with unnecessary features.

Here at Pro-Ject, we strive to create astonishing products with impeccable value. We only use the best components for the price and manufacture our handmade goods solely in Europe. With an eye for future trends, we are always trying to fit the needs of the market.

Our passion and drive have been recognized by many acclaimed magazines. We have won multiple awards from the renowned HiFi press for our turntables and electronics over the years. Our products have also been used in countless TV shows and movies.

With cutting edge technologies and machines, we can create visually pleasing products without losing the eye for the finest details. We are closely working with partners of the music industry, such as Universal Music Group (The Beatles), Third Man Records (Jack White), The Rolling Stones, Parov Stelar, or the world-famous Hard Rock Café. Many industry leaders also cooperate with us, like the Vienna Philharmonic Orchestra or Ortofon for their jubilees. With these partners, we create special limited edition products to give our customers even more choices.
