INSTRUCTIONS FOR USE Pro-Ject Power Box DS2 Amp

Dear music lover,

Thank you for purchasing a Pro-Ject Audio Systems Power Box DS2 Amp.

In order to achieve maximum performance and reliability you should study these instructions for use carefully.

Warning of a hazard for the user, the unit or possible misuse

Important notice

Safety instructions

AC outlet voltages vary from country to country. Before connecting to the mains, make sure that the voltage in your area meets the voltage requirements printed on the device.

Never handle the device while your hands are wet or damp. Avoid letting liquids enter the device. Never place any item containing liquid, such as a flower vase on or near the device. Never spill any liquid on the device. Never place any naked flame sources, such as lighted candles on or near the device. The product shall not be used in damp or wet locations, next to a bathtub, sink, swimming pool or any other similar conditions.

Using the product

Power Box DS2 Amp is designed to power Pro-Ject amplifiers which require a 2x48V DC power supply.

Make all connections whilst the **Power Box DS2 Amp** is **switched off or disconnected from the mains**.

Power Box DS2 Amp is designed for **Amp Box DS2**, **Amp Box DS2 mono** (RS and DS line 48V power amplifiers also will work). Interconnection cables are included in the packaging. Original power supply of the amplifier is not needed.

Pro-Ject Power Box DS2 Amp can power one stereo amplifier or two mono amplifiers.

Connection of two stereo amplifiers can overload and damage the unit.

Trigger connection

Power Box DS2 Amp is equipped with 12V trigger-out socket (jack 2.5mm) to turn on/off a Pro-Ject product with trigger input socket.

Do not use the trigger output for any other connections for which it is not designed.

Main power switch

The toggle switch on the left side of the frontpanel turns the unit on or off. The blue LED above the switch shows that the unit is switched on.
