5 PIN DIN or Flying Leads?

The Pro-Ject EVO tonearms are available in both, 5 PIN DIN and flying leads, versions.

Turntables with 5 PIN DIN connector

Simply swap the tonearm - no soldering needed

Please order 5 PIN DIN version!

Turntables with RCA Output Box

Leads must be soldered to RCA output sockets

Please order flying leads version!

Optional Flanges

To mount EVO tonearms on turntables with non Pro-Ject arms you will almost certainly need a different flange or base for the tonearm.

We have **SME flanges on stock**, which you need to fit in the predrilled mounting hole of the turntable.

Jelco, Morch and Ortofon flanges are also available on request for **200€** per flange.

Custom Flanges

Custom flanges for other combinations, can be produced for **SRP 250€ fix price**.

Please get in touch with our team at support@project-audio.com for any questions about flanges.
