Uni Box S3

Universal integrated amplifier with modern streaming

MSRP 799€ (incl. VAT)

- **NEW** Streaming by market leading technology WiiM OS ™
- **NEW** App Pro-Ject Home
- **NEW** Powerful Multi-Room capabilities
- **NEW** Pro-Ject True Wireless Sending and Receiving: Stream any input to your network
- **NEW** Countless streaming services
- **NEW** Tidal Connect, Spotify Connect, Qobuz, etc ...
- **NEW** TV ARC input
- Wireless vinyl streaming from T2 W
- 2 x 40 watts @ 4 ohms
- Dual mono design principle
- 8 inputs (3x analog, 3x digital, 1x eARC, 1x WiFi/Bluetooth)
- Cirrus Logic CS4344 24bit/192kHz Multi-bit Delta Sigma
- S/PDIF inputs support up to 24bit and 192kHz
- Phono MM input
- Analogue volume control with motor driven potentiometer
- 6,3mm jack headphone output
- Variable output for subwoofer or second zone amp
- Remote control included
- Rigid aluminium casing protects against interference
- Available in silver or black
- Made in Europe

colour options: ⚫ ⚪

Power output: 2x 23W / 40W at 8 / 4ohms (1% THD)
Frequency response (20Hz - 20kHz): < 0,4 - 0,9dB @4ohms
Channel separation: - 67dB at 10kHz
Signal to noise ratio: 94dB (9dB-,A' weighted) @4ohm
THD: < 0,05% at 10W / 4 ohms
Headphone amplifier: 70mW at 32ohm (1%THD)
Analogue inputs: 2x pair RCA, 1x phono MM (RCA)
Digital inputs: RCA coax, 2 x Toslink, eARC, WiFi/BT
Power amplifier: Texas Instruments TPA3221DDV
DA-converter: Cirrus Logic CS4344 24bit/192kHz
Variable output: 1x pair RCA
Speaker connectors: 4mm Ø banana plugs, spades connectors or naked wire
Wireless connectivity: Wi-Fi 5, 802.11 b/g/n/ac 2.4 G and 5G dual bands, Bluetooth 5.1, SBC and AAC
Power supply: 20V/3A DC; 100 - 240V, 50/60Hz
Standby Power consumption: < 0,5 watts
Dimensions WxHxD: 206x55x153 (176mm with sockets)
Weight: 1100 g without power supply

Your HiFi streaming amplifier -
Analogue and streaming done right

The Uni Box S3 is a compact all in one **integrated streaming amplifier** solution. It combines the **audiophile specialities** of the MaiA S3 and adds **high quality streaming** capabilities. The Uni Box S3 dares to break away from the norm, **redefining** what a **modern streaming** amplifier can be. While many amplifiers are dominated by deeply integrated **streaming tech** - **compromising their core design** - the Uni Box S3 takes a different path.

The Uni Box S3 **masterfully bridges** the worlds of **analogue and streaming**. Your **analogue sources** - like turntables - are **not digitized**, preserving their **rich and lifelike sonic character**. With a **fully analogue pre- & and power amp** design, every nuance of your music is delivered with **breathtaking punch and dynamic precision**. At Pro-Ject Audio Systems, our **mastery of analogue hardware design** allows us to craft an astonishingly **powerful amplifier** within the **sleek, compact aluminium case** of the Uni Box S3. All this power remains usable entirely without a mobile app or the need to constantly update software.

The Uni Box S3 retains all the **analogue design principles** of the MaiA S3:

- Same powerful amplifier technology

- Fully analogue pre- & poweramp design

- High-quality MM phono input with exceptionally low noise yet high gain (46dB) - your turntable deserves a great phono stage!

- Analogue & digital inputs

- Headphone output

And new in the Uni Box S3:

- Carefully integrated streaming input

- Versatile multi-room options

- Stream any connected device - like your turntable, CD player or TV - to other network streamers in your home*

- TV ARC connection

Headphone Output

Superior Design

Fully analogue pre- & poweramp design.
Analogue inputs stay analogue and are not digitized.
Careful integration of digital streaming technology -
with industry leading WiiM OS ™
Clean separation of analogue and digital for longest product lifecycle.

Motor Potentiometer & Analogue Volume Control

Fully Analogue Dual Mono Amplifier Design

Compatible with Uni Box S3. Compatible with Stream Box E, Stream Box S3 & Wireless Box E available later in 2025.

Partnering with **WiiM**, the Uni Box S3 streaming technology is powered by the industry leading **WiiM OS™**. The Cirrus Logic CS4344 DAC offers a high quality resolution of up to 24bit and 192kHz.

With the **Pro-Ject Home** app you control the **streaming options** on input 8 - the **streaming input**. Setting up the WiFi connection is a breeze. Just open the app and it **automatically detects your new Uni Box S3** and walks you through the **setup process**. Comfortably **reset the WiFi** connection via **long press of the Stream button** on the front panel.

Pro-Ject Home gives you access to all the **major and many smaller streaming services**. You can **group** multiple **latest generation Pro-Ject streamers*** and build flexible **multi-room** systems.

The Uni Box S3 even allows you to **stream any of your connectected devices** - turntable, CD player or even TV - to **other compatible streamers***.

Uni Box S3 **streaming its input** to a Stream Box E and a stereo pair of Wireless Box E in different rooms - listen to your turntable in every room.

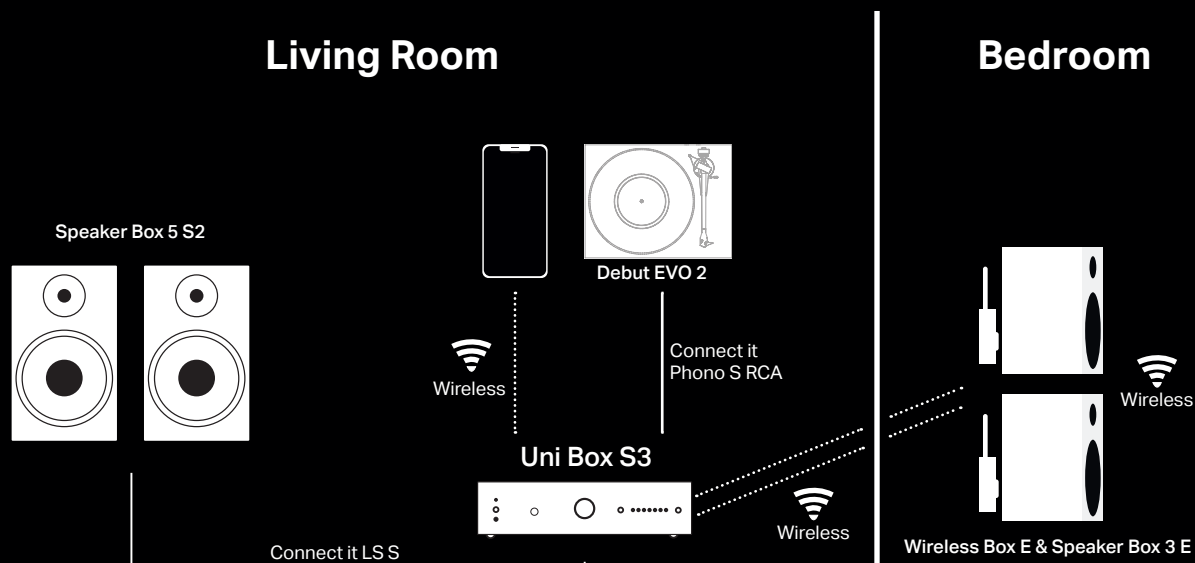

With the supplied **remote** you operate the **analogue volume control, switch inputs and mute/unmute** the amplifier.

Compatible with Uni Box S3. Compatible with Stream Box E, Stream Box S3 & Wireless Box E available later in 2025.

Versatile In- and Outputs

The Uni Box S3 offers a phono RCA MM input as well as two line RCA inputs for e.g. the CD Box S3. You can also connect digital sources like your TV or a CD transport via the coax or optical S/PDIF inputs and use the internal DAC with a quality up to 24bit and 192kHz.

It also provides versatile output options. Use your favourite headphones to privately enjoy your favourite tracks or connect your speakers with the 4 mm banana plugs and the low noise amplifier will do the rest and provides you musical sound with lifelike characteristics. The variable RCA output also allows you to include a subwoofer or another power amplifier in your setup.

Variable Output

Connect your subwoofer for some extra bass

Speaker Output

The gold plated terminals output powerful 40W for your favourite speakers

Phono Input

MM compatible high quality phono input for your turntable

Streaming

WiFi streaming of Hi-Res audio up to 192 kHz/24 bit; BT 5.1

Line Inputs

Connect external source devices via the 2 line inputs (e.g. CD player)

Digital S/PDIF Inputs

Use the high quality internal DAC and connect optical or coaxial source devices

ARC TV Input

Connect your TV and enjoy highest audio quality
