

Amp Box S3 L

Audiophile stereo power amplifier
MSRP 499€ (incl. VAT)

Colour options:

- **NEW** Powerful 140 watts per channel at 4 ohms
- **NEW** Advanced amplifier module for tube like sound
- **NEW** highly efficient - max power in smallest form factor
- Dual mono design
- Stereo input (RCA)
- Isolated speaker sockets
- Suitable for Banana/Spade/Pin/bare wire
- Metal case protects against vibration and interference
- On/Off front-sided
- Trigger input
- Available in silver or black
- Made in Europe

Power output: 2x 80W/140W at 8 ohms/4 ohms (1%THD)
Frequ. response (20Hz - 20kHz): 0,1dB (20Hz) +0,3dB (20kHz)
Channel separation: < -82dB at 10kHz
Signal to noise ratio: > 97dB (107 dB „A"-wt.) at 1kHz
THD+N: < 0,005% at 10W
Gain: 26 dB
Line level inputs: 1 pair RCA (sensitivity: 1,25V)
Input impedance: 10 kohms
Speakers output: 2 pairs 4mm Ø banana plugs, spades connectors or naked wire
Trigger In: 12V DC switching voltage, Ø 2,5mm co-axial jack
Outboard power supply: 36V/5,5A DC
Power consumption: <0.5 W standby
Dimensions: 206 x 55 x 153 (163mm with sockets)
Weight: 1100g without power supply

The bigger brother: Even More Power.

Building on the **success of the acclaimed Amp Box S3**, the Amp Box S3 L takes things a step further — offering a **larger chassis** and **significantly more power**, while staying true to the **efficient, no-compromise philosophy** that made its sibling a **hit among audiophiles**.

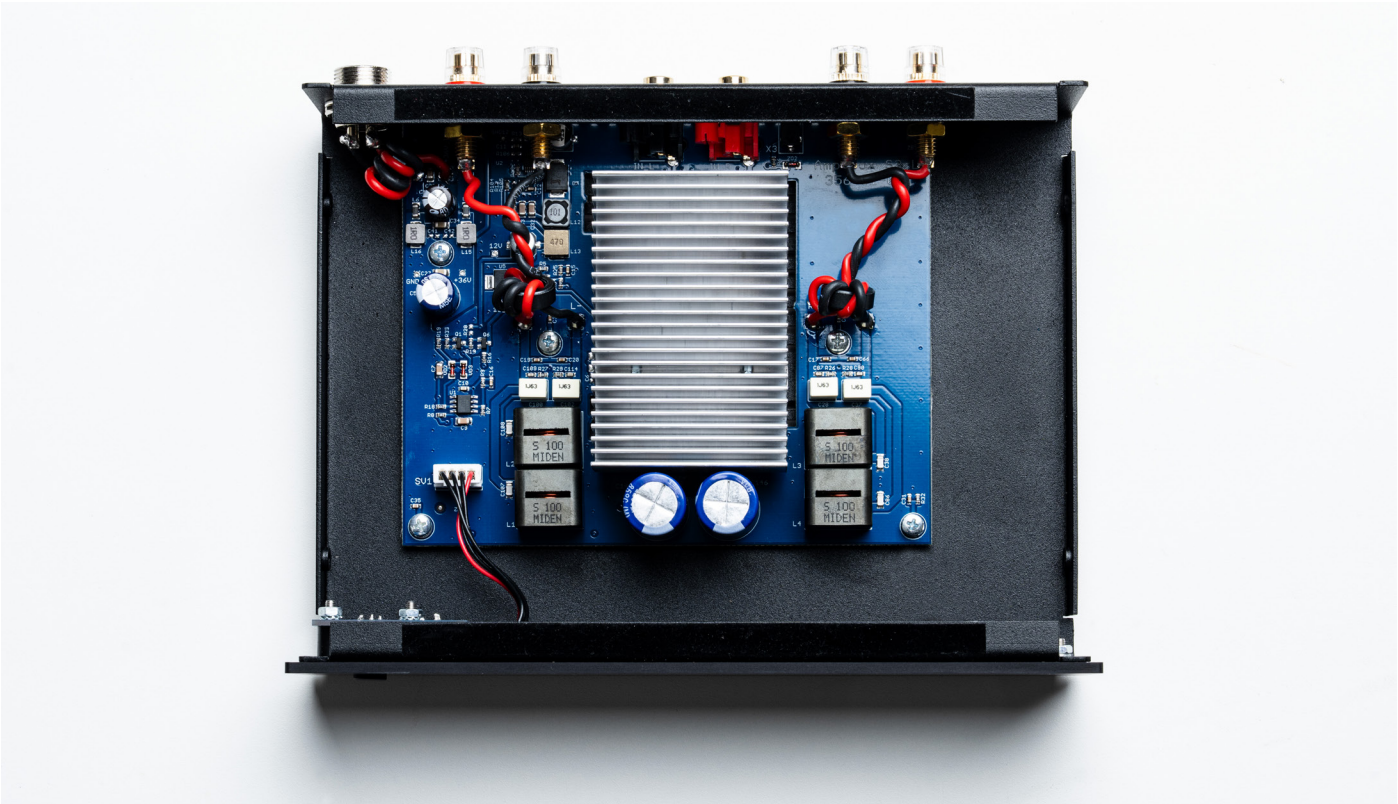

The goal behind the Amp Box S3 L was to create a digital amplifier that **captures the warmth and musicality** traditionally associated with tube amps — combining that **classic sound character** with the **efficiency**, **reliability**, and **compact footprint** of modern digital amplification.

Where the standard **Amp Box S3** impressed with its **ultra-compact efficiency**, the **S3 L** steps up with a **larger enclosure** to house a substantial **140 watts per channel at 4 ohms**. This slightly bigger form factor still delivers **maximum power** in an impressively **small footprint for its class,** resulting in a **noticeably more authoritative sound**, ideal for **harder-to-drive** speakers or **larger rooms**.

Like its smaller sibling, the S3 L relies on a consistent **dual mono layout**, amplifying both channels completely independently. This **minimizes crosstalk** and **delivers a cleaner, more precise stereo image**.

Outstanding quality made in Europe!

The **Amp Box S3 L** comes in an **simple yet luxurious design**, housed in a **sturdy aluminium enclosure** that **effectively shields** against **interference and vibrations**. Its **clean, elegant finish** allows the Amp Box S3 L to blend seamlessly into any HiFi setup and is the **perfect partner** for our universal preamplifier, the **Pre Box S3.**

The new Amp Box S3 L is **designed and produced in Europe**, and is available in **black and silver finishes**.
